

INSTRUCTIONS

Kit Number:

90500290 REV A

Kit Description:

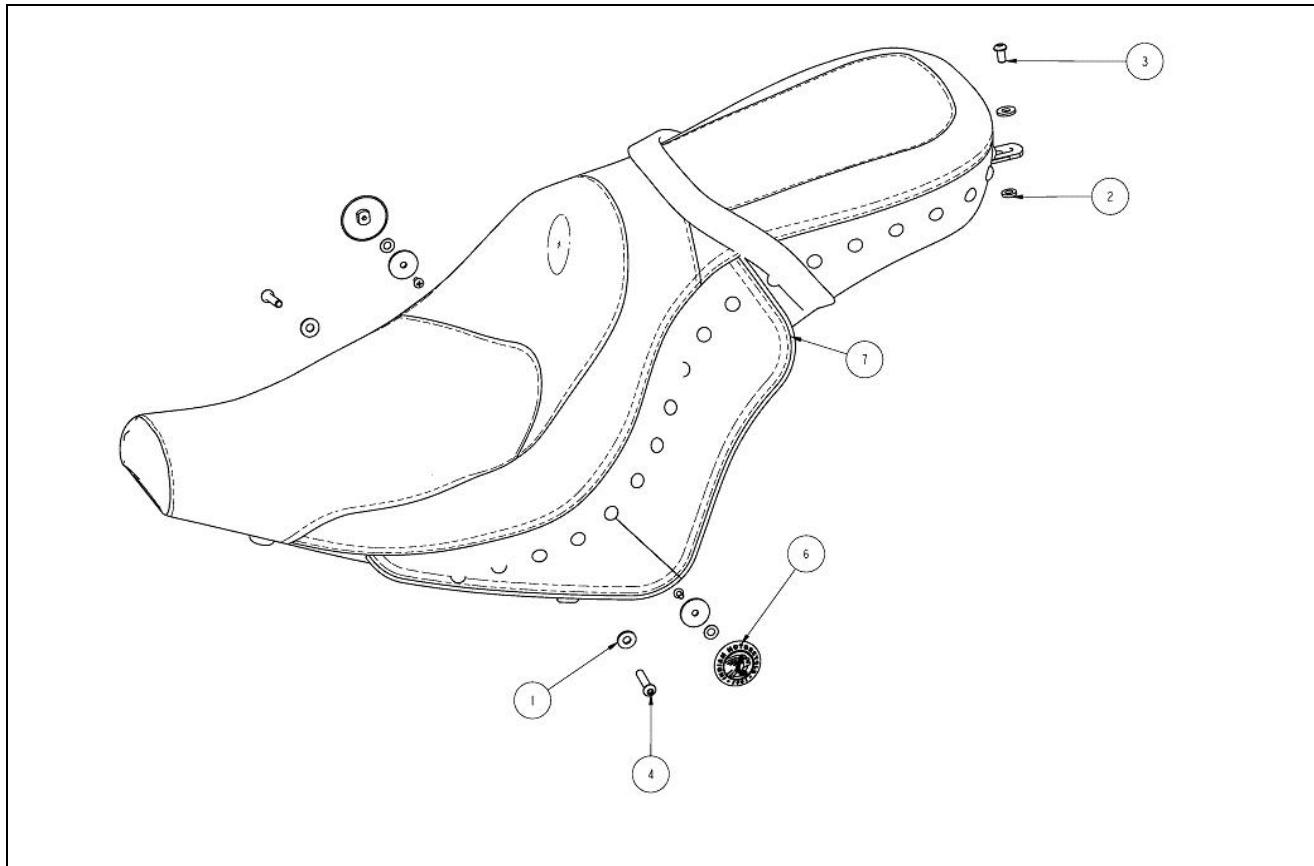

The Dual Seat Installation Kit contains, only, all fasteners and hardware required to install a dual seat to the vehicle. For complete seat replacement, specific Dual Seat and Medallion Kit selections are required in addition to this hardware kit.

Installation Instructions:

1. Install medallion kit (see additional kit requirements) if needed
2. Install seat (#7) onto bike ensuring:
 - a. The male front tab on solo seat engages properly on female frame tab
 - b. The two side brackets on the seat engage properly in frame openings
3. Align holes in frame to seat bracket and install fastener (#4) and washer (#1). Torque 74-88 lbs. inch
4. Install rubber grommet (#2) between pillion bracket and rear fender to prevent paint damage
5. Install fastener (#3) with washer (#1) through rear seat bracket. Torque to 10-15 lbs. inch

Warning: After installing seat, pull upward on seat to ensure the seat is secured in position. If the seat is not properly secured, the seat shift can cause loss of control, which could result in serious injury.
